

## City Rejects Edison Co. Franchise

### Council Invites New Ordinance Limiting Grant To 30-Year Period

Following a conference with officials of the Southern California Edison Company shortly before its meeting Tuesday evening, the council rejected the company's application for a franchise to extend over an indefinite period. In announcing its refusal to adopt the franchise ordinance introduced several weeks ago the council suggested re-introduction of the ordinance limiting life of the franchise to a period of 30 years. In all other respects, it was announced, the ordinance was satisfactory.

It is expected that the Edison Company will submit the new ordinance at next Tuesday evening's regular meeting of the council. Rejection of the original ordinance requires that the procedure followed with respect to it up until the time of its rejection must be followed; that is to say, following its introduction the council must fix a date for a public hearing and give notice of it before it may take any action.

At the suggestion of Al S. Myers, former city business manager, the council announced that immediately upon its presentation, copies of the new ordinance will be made and will be available to the public at the city hall, a procedure not heretofore followed by any city council in Sierra Madre.

At a conference with Fred Schwartz, district manager of the Edison Company, and Dale Selig, its franchise attorney, prior to the council meeting, the council gave them notice of its unwillingness to accept the original ordinance. Immediately upon its going into session Mr. Myers asked whether it was intended to act upon the ordinance and was informed by Councilman Schwartz, temporarily presiding, that the measure would not be passed that evening. Later on Mr. Schwartz moved that the ordinance be rejected and that the Edison Company be notified that "the council will entertain an application for a franchise containing all the terms and conditions set forth in the original application, except that the term for which the franchise shall be granted shall be for a term not exceeding 30 years."

## KEEN INTEREST SHOWN BY CITY'S YOUTH IN CLASS TO TEACH FOREST FIRE FIGHTING

So many high school and junior college boys and young men have made inquiries concerning the forest fire fighting class to be started tomorrow by the local fire department that Fire Chief W. D. Richards last night expressed a belief that at least 50 would attend the initial meeting of the class at the city hall a 2 o'clock tomorrow afternoon.

"We may have as many as 100 members before the month is out," said Chief Richards. "I don't believe I have even seen anything that appeared to appeal to the youth of the city as strongly as this opportunity for

## Home Hygiene Class To Demonstrate Its Services

Demonstration of work done by the American Red Cross home hygiene class taught by Mrs. Augusta Coats will be given Monday afternoon, May 22, at the Sierra Madre grammar school. The program will mark the close of spring classes in home hygiene which will be resumed in the fall. Lack of space for the demonstration at the school makes it necessary to limit attendance to those women who are really interested in the work and who contemplate becoming members of the next class.

Home hygiene and care of the sick courses are given by the Red Cross as a phase of health education and are for the purpose of aiding in health problems of the home and in care of ill members of the family. Efficient and healthful methods of meeting the normal problems of the home are taught—such as care of the baby, pre-school, school child and the aged—and a basic understanding of principles of prevention and control of disease is one of the aims of the class.

## Good Will Is Theme For PTA Program

### Unique Entertainment Planned As Officers Are Installed Next Thursday

At the closing meeting of the year, Thursday afternoon, May 25, local Parent Teacher Association members will offer a program of music, a short play and newly elected officers will be installed.

Topic of the day, "Living Together as Nations," will be illustrated in a march of the nations, showing the varied nationalities represented by local school children and in selections of music from many countries, music being a strong international bond. A Girl Scout and a Boy Scout, representing international organizations promoting understanding and good will among youth the world over, will lead the audience in the pledge to the flag.

Music will include Paderewski's "Minute of a Minute" by David Smiley; "In Flanders Fields," by Mrs. A. H. Embree; Sibelius' "Song of Peace" from Finlandia, and if permission is received, Harold Carew's "Hymn of Peace," both to be sung by Carla Thayer, accompanied by Katherine Norris. Mr. Carew's song is of particular interest locally as both he and the writer of the music, Oscar Rasbach, were Sierra Madreans at the time of composition.

An innovation will be presentation of annual reports through a skit entitled, "Believe It or Not, P.T.A. Can Be Fun!"

Installation of officers for the ensuing year will be conducted by Mrs. Waverly Pratt, who is completing a term in the Pasadena P.T.A. Council as chairman of Citizenship and International Relations. The meeting will close with the Londoner Air to the P.T.A. version, "God Bless Them Everywhere," given by Misses Thayer and Norris.

The public is not only invited but urged to attend as encouragement for the pupils who will participate.

## Teacher And Councilman Elope

### Resignation Of Gladys Albright Reveals Marriage In Arizona In March

Resignation of Mrs. Gladys Albright as a member of the teaching staff of Sierra Madre Grammar school on Saturday revealed the fact that she and Councilman Paul N. Carter eloped early in March and were married at Kingman, Arizona, spending a brief honeymoon at Las Vegas and Hoover dam.

The elopers so carefully guarded their secret that only a very few of their most intimate friends were aware of it and there was no formal announcement of the event until Mrs. Albright appeared at a special meeting of the school board Saturday afternoon where she made the announcement. A lengthy conference with the board followed, during which the teacher presented her resignation which read as follows:

"I, Gladys K. Albright, do hereby resign my position as teacher in the Sierra Madre school, this resignation to be effective as of today."

She had previously, on May 8, tendered her resignation to become effective after June 16, at the close of the school year. Her letter addressed to Mrs. Henrietta Hinkley, clerk and a member of the school board, followed: "Kindly accept my resignation from the position of kindergarten teacher in the Sierra Madre elementary school to take effect after June 16, 1939. The five years which I have spent in this school have been very pleasant and happy. I wish to express appreciation for kindnesses shown me by this present board, and especially by Mrs. Bovard and Mr. Hartman."

Rudolph R. Hartman was president of the school board at the time of the now Mrs. Carter's appointment five years ago. Mrs. Gilbert S. Bovard was a member of the board. Edwin Ward, Jr., now president, had shortly before become a member.

Under the date of May 12 a letter by Mrs. Hinkley on behalf of the board accepted the above resignation. Mrs. Hinkley's letter follows:

"Your resignation was received, and read at the regular meeting of the Board of Trustees, Tuesday evening, May 9th.

"It is with regret that we accept your resignation and wish to express at this time our appreciation of your excellent services, and your loyalty to the school. Copies of your letter are being forwarded to Mrs. Bovard and Mr. Hartman."

Mrs. Carter's resignation became immediately effective and a substitute teacher from Pasadena assumed her duties Monday morning. On Tuesday Mrs. Dorothy McBurney, of West Los Angeles, was engaged to take charge of the kindergarten until the close of the school year.

Gerald Smith, newly appointed superintendent and principal to succeed Miss Elizabeth Steinberger in September, will be in Sierra Madre all day tomorrow to look over the school and get acquainted with his new surroundings. The school board has been sending him information on the proposed eighth grade. From this he will submit an eighth grade curriculum for September and decide what additions or changes in the teaching staff will be necessary, in his judgement.

## Policy Of The Playhouse Shattered

### Lee Shippey's "Great American Family" To Be Continued Fourth Week

Lee Shippey's "Great American Family" has shattered the run of play policy of the Pasadena Playhouse—it is to be continued for the fourth week and will close on May 27.

The Playhouse seating capacity has been inadequate in three weeks' take care of anything like the number of people who have wanted to see the Shippey and on seven of the 13 performances the house was completely sold out, while at other performances the S.R.O. sign went up. Another play was scheduled to follow next Tuesday but the applications for seats and the demand for further performances caused the management on Wednesday to continue the show for another week. It is the first time in the history of the theatre that any production has been run beyond three weeks and the attendance records have all been broken.

Not in five years has a play attraction at Pasadena equaled the interest created by the home-spun, humorous story of Mr. and Mrs. Greg Seymour and all the regularly slated run of 13 performances playgoers were turned away at seven and the double length run provided the single alternative.

Saturday, May 27

at 18 W. Sierra Madre Blvd.

MORE than a hundred Sierra Madre men and women attended the smorgasbord brunch at the Woman's Club Wednesday, contributing substantially to the club treasury. A wide variety of deliciously prepared foods were attractively arranged on a buffet table which was centered with an arrangement of deep rose peargonium. Varicolored roses and Cecil Bruners decorated the small luncheon tables. Club members who assisted the chairman, Mrs. William Lees, in making the affair a delightful success were Mmes. H. B. Hersey, Mrs. F. L. C. Roess, Mrs. J. H. Robertson and Mrs. Frances Brain.

A program of book reviews and topics of current interest to be given by Mrs. Edward A. Tufts of Los Angeles, will be presented at the meeting of the club next week. Mrs. Tufts has appeared at the Club before and is well remembered for her splendid reviews. Another feature of interest to all members will be a talk by Mrs. W. J. Lawless, who attended the recent federation council meetings in Oakland and San Francisco and will discuss the more important phases of both gatherings.

Announcement was made early this week by Mrs. Harry E. Willets, president of the County Federation of Women's clubs, of the appointment of Mrs. Al S. Myers, president of the local

club, as regional chairman of this district. Mrs. Myers is one of four women in the county to receive the appointment, and will carry on in the place of Mrs. John H. Robertson, who served in this capacity last year.

Announcement of change in location for the Rummage Sale, to be conducted May 27 by the Woman's Club was made this week. Due to the renting of the building formerly occupied by the Safeway store on Baldwin avenue the sale will be at 18 West Sierra Madre Blvd. Mrs. H. B. Hersey, chairman of the sale will be assisted by Mrs. W. S. Hull, Mrs. Milford Thompson, Mrs. J. C. James, Mrs. C. W. Jones, Mrs. W. J. Miller and Mrs. C. E. Rappolee. A table of plants arranged by the garden section will be in charge of Mrs. W. J. Lawless. Mrs. Woodson Jones and Mrs. J. F. ## Another Beautiful Old Tree Graces Scenic Point

Another beautiful old specimen tree was added this week to the already fine collection growing on Scenic Point with the planting of a 45 year old olive tree in the front garden of the home of Mr. and Mrs. Sidney Jewell, 560 North Hermosa avenue.

The tree, which formerly grew in the Sylmar grove, near San Fernando, reputedly the largest olive grove in the world, is the oil bearing type and while having lived for almost half a century, is a comparative youngster, as the olive lives from seven hundred to a thousand years. It had been boxed six weeks, and weighed seven tons (with boxings) yet three efficient men had little difficulty in placing it in an excavation 10 by 10 by four feet in the front lawn where it will be a distinct horticultural addition to the neighborhood.

## MRS. MAY T. HUFFMAN DIES IN GLENDALE

A resident of Sierra Madre for four years, Mrs. May T. Huffman, aged 74, 103 East Montecito avenue, passed away at Glendale May 11. She was born January 27, 1865, in Winona, Minn., and was manager of the North American Telegraph Company in that city for many years. Mrs. Huffman came to California 31 years ago.

Funeral services were held Friday afternoon at 2 o'clock with interment at San Gabriel cemetery. The only survivor is a brother, Frank H. Thomas, of 103 East Montecito avenue, with whom she made her home.

## CAMP FIRE GIRLS ARE GOOD SALESLADIES

Proof that Sierra Madre Camp Fire Girls are excellent salesladies was shown at Monday evening's civic committee meeting held at the grammar school when a splendid record of donut sales was marked up for the first week. Proceeds from the sale which will close Saturday, May 20, will be used to build a new cabin at Camp Wasegwan in the San Bernardino mountains for girls of the Pasadena district.

Miss Eva Hancock, Pasadena, chief of this district, congratulated the local group for its fine showing.

**WHETHER** two-maids-and-a-man do your Spring and Summer cleaning, or whether you hire yourself into your house-coat in a room-and-kitchenette apartment—you are going to want some one-dish meals to carry you through! Although we may be very casual about this annual job and laugh at the old days when grandfather had to smoke his pipe on the porch to keep the peace, there is bound to be a time when menu-making doesn't get much of a hand. Let your choice be a casserole or broiler or a new dish from the refrigerator so that the men of the household may dine in peace while you go about the affairs of the day with calm and enjoyment. These quick and easy recipes will keep monotony from the menu and wrinkles from your brow.

### SPAGHETTI DELECTABLE

1 8-oz. packet spaghetti  
1 No. 1 can tomatoes  
Salt, pepper, celery salt  
1 onion sliced  
1 tablespoonful fat  
3 strips lean bacon  
6 lamb or pork kidneys  
2 tablespoonfuls butter

Cook spaghetti and turn into greased baking dish. Strain tomatoes, season to taste with salt, pepper and celery salt; add onion which has been sautéed in fat 2 minutes, and pour over spaghetti. Cut bacon strips in halves and arrange around edge of dish. Remove outer skin from each kidney, cut in halves, removing tubes; arrange halves, cut-side up, on spaghetti and dot with butter. Bake in moderately hot gas oven (375 F.) about 40 minutes, or until kidneys are cooked. Approximately yield: 6 portions.

### RICE URUGUAYAN

1½ teaspoonfuls salt  
1-8 teaspoonful pepper

Wash and drain rice; combine with carrots, onions, beef, parsley, water and seasonings, mixing lightly with fork. Cover and cook over low flame or bake in a moderate gas oven (350 F.) for 50 to 60 minutes. Approximate yield: 6 portions.

## Case and Comment

By Charles B. Showalter

(Editor's Note: The opinions expressed herein are those of Mr. Showalter and do not necessarily reflect the attitude or opinions of THE NEWS.)

MR. JOHN L. LEWIS informs the President and the Congress that they must make provision for three million men on WPA for the next fiscal year beginning July and demands an appropriation of \$3,000,000,000 for relief. And when Mr. Lewis speaks, something's just gotta be done. It should be kept in mind that Mr. Lewis, through his Communist CIO, furnished a sizeable chunk of money to help Tammanize these United States and put the New Deal in the saddle, and he must be kept sweet at any cost. If Mr. Lewis should become peeved and refuse to play ball with the Farley boys, it would be just too bad, and a lot of political boomlets would be prematurely busted.

But what about the boys that have to work for a living and pay these bills? What about the small businesses that are being eaten up by taxes and restrictions, and must sooner or later fold up and send more thousands to relief and WPA?

What about big business that must find their field further and further restricted by the drying up of consumer demand, throwing more and more thousands on relief and WPA?

Where is this group of red and pink economists taking us? One fifth of our entire population is now on an economic level with relief and WPA. If the present New Deal economic insanity is to be continued an entire population will be forced to the same level. The New Deal economic policy has proven to be stupid, immoral and subversive, and in

view of its disgraceful failure, its sponsors are open to question as to their patriotism, if not their sanity.

Economic law is just as inexorable as the moral law and both are involved in this program. Penalties follow violation as the night the day. The New Deal violates every known economic law, and also violates the moral law by daily contracting debts impossible of payment. The penalty will be the impoverishment of a nation—even to generations yet unborn.

If we needed any further evidence of the utter ineptness and stupidity of New Deal economics a glance at the agricultural appropriation bill would be sufficient. The latest farm bill passed by the Senate carries \$1,213,666,572 for the relief of agriculture. This vast sum added to similar expenditures since 1933, totals approximately \$5,000,000,000 spent to help the American farmer, and he is now worse off than when the government started these indefensible subsidies. Average farm prices are much lower now, measured in 100 cent dollars, than at any time since 1893, notwithstanding all the heroic efforts of Mr. Wallace to peg farm prices to the 1926 level.

And while one department of the government hands out checks to the farmer not to produce (and thereby increases unemployment)—another department of the government destroys our foreign market and export trade with their reciprocal trade agreements with other nations. As a result our export cotton trade has practically disappeared, and the Department of Agriculture is spending millions of money, that should be left in the hands of the taxpayer, to buy up the surplus cotton and hold up the price for the cotton grower. And that price is just so blankety-blank perverse that it will not obey the New Deal dictum, and continues to go on down and down. Southern economy was built on King Cotton. Now the industry is a wreck, and bankrupt. Result: one and one-half million persons added to relief.

Our export trade in grains and in meat products has practically dried up. But that is only half the story. We are importing large quantities of corn, wheat and meats from Argentina and elsewhere. We subsidize the American farmers to withhold land from production, and then pay foreign workers to produce for us what should be produced at home, with American labor. Result—a few more millions on relief. Agriculture is America's basic industry. There can be no national recovery so long as we have a bankrupt subsidized agriculture. And there can be no permanent gains in agriculture so long as the industry is directed from a swivel chair in Washington. One whose farm experience does not extend beyond a window-box on Park avenue could not be other than a tragic joke in farm management.

Agriculture can be restored to a paying basis, and if that were done other industries would be stimulated and started on the upgrade again. How can it be restored?

- 1—Remove all government control and interference and repeal all bureaucratic restrictions.
- 2—Abrogate all the reciprocal trade agreements with foreign nations.
- 3—Take tariff making away from the State Department and return it to the Congress, where it belongs.
- 4—Restore the farm tariff provisions of the Smoot-Hawley Act.
- 5—Abandon the prevailing Red idea of regimentation in agriculture as well as in other lines and let every fellow mind his own business first.

There is no chance, of course, that the New Deal accept any of these suggestions. The leopard cannot change his spots, nor F.D.R. admit a mistake. But there is room for hope that 1940 may see the demise of the New

Extravagant Habits  
Of State Employees  
Drawing Fire

State employees are running wild in the matter of charging up unnecessary expenses and indulging in all manner of extravagances according to Assemblyman Lee T. Bashore of Glendora, who has set machinery in motion at Sacramento to call a halt. Particular offenders, Bashore says, are members of the administrative staff of H. Dewey Anderson, state relief administrator, who have been going in for airplane excursions in a big way.

Citing trips taken by Buell Maben, Elizabeth Connolly, Martin Ruderman and James Reese of Anderson's staff, Bashore said he doubted very much the sincerity of purpose in an administrator who sends his personnel "scurrying about the state in expensive airplanes, while relief clients complain about receiving so little."

Bashore pointed to the date of Maben's air jaunt from Los Angeles to San Francisco on April 16, a Sunday, saying that plenty of time was available for travel by auto or train. Miss Connolly, Ruderman and Reese flew from Los Angeles to San Francisco on April 17, a Monday, Bashore said, "which means they received their traveling orders on Saturday and had ample time to make the trip by rail or bus at a small fraction of the cost of airplane trips."

## Legislative Comments

By T. FENTON KNIGHT  
Assemblyman, 48th District

UNLESS there is a decided change in the attitude of both houses of the Legislature in the very near future, the Administration will have no program of its own to follow after adjournment takes place. To date there has been no major legislative measure sponsored by the Governor that has not been drastically amended or completely rejected by either the Senate or Assembly. The revolt against measures emanating from the Governor's office with the recommendation that they be passed without change started when the budget bill was first presented.

The group of some 12 conservative Democrats that joined with the Republicans to trim over \$8,000,000 of the budget before it was passed to the Senate, apparently find the minority party camp a more congenial place in which to carry on their legislative activities. This combination, which shows definite signs of continuing throughout the remainder of the session, gave its unanimous approval of State Relief Administrator Director H. Dewey Anderson's request for \$3,500,000 additional funds to carry on Relief Administration for the balance of the fiscal year. The original request of \$4,050,000 for this purpose was rejected, so the economy bloc feels that it has at least saved the taxpayer \$550,000. Other measures endorsed by the administration which went down to defeat during the week include the wage and hour bill, and lobby legislation.

In reviewing the bills that have thus far been approved by either of both houses of the Legislature it is interesting to note that hardly a measure of state-wide import has been accepted. To those who have in the past complained of too much legislation this should be an encouraging sign. It should also be welcome news to those businessmen who have complained so bitterly in the past that the rules under which they attempt to conduct their affairs have been changed so rapidly that they cannot plan for the future with any degree of certainty.

## STATE PICNICS

The annual picnic reunion of the Missourians will be held all day, Saturday, May 27th, in Sycamore Grove Park.

One of the greatest Memorial Day crowds will be assembled in Sycamore Grove, Los Angeles, on May 30, to witness a great Memorial Day program, which starts at 2 o'clock. The program will be sponsored by the Oklahoma State Society, which holds its picnic that day. Governor Olson has accepted an invitation to be the guest of honor and principal speaker.

Youth Passes  
Too Rapidly;  
Use It Well!By PATRICIA LINDSAY  
© Bell Syndicate—WNU Service.

LITTLE sister at the age of three loves to wear mother's high-heeled shoes and powder her nose. A few years later she wants her curls "done up" or cut short like big sister's. When she is entering her 'teen age she is so eager to be an adult that she gets unruly, and causes herself, and those around her, a lot of trouble.

Are you a little sister? Why do you suddenly want to be old? It's no crime to be young! Youth is glorious—being young is thrilling, if you will just take it in your stride at the pace you should.

You think mother and daddy are old meanies for keeping you away from some parties and asking you to get home early from others. You get simply furious when mother insists on low heels and clothes which you think of too sweet, simple and girlish. Big brother is a downright nuisance when he suggests quietly that you lay off heavy make-up and petting in dark corners, "or else," "Oh," you wail, "will they ever let me grow up!"

Of course they will, sister, just as quickly as you convince them that you are not a reckless, heady little tadpole, so eager for adult life that

Quit hating the fact that you are still young.

you are missing today. They know the pitfalls, and because they love you, and so want to be proud of you, they seem over-cautious when they try to steer you clear of them. Why don't you help a bit?

Quit hating the fact that you are still young. Glory in being your age and live each day joyously. Delight in your clubs, your frivolous parties, your many privileges—all yours because you are young! And every minute, sister, cherish and protect your fresh loveliness, for once you lose it, or mar it, you can never recapture it!

These Things  
Are Essential

Begin right now keeping yourself healthy and lovely. Eight or nine, even ten, hours of sleep each night (see why mother wants you home early?). Use little make-up, for young skins have a definite beauty which should not be covered. A rosy lipstick, a speck of good powder. No mascara, eye-brow pencil, rouge. Why hide that pixie allure with cosmetics meant for fading beauty? Isn't big brother right after all? Let your skin breathe unhampered, and keep your cheeks and mouth rushing with color by exercising. Walk in low-heeled shoes whenever you can to develop true and glorious posture, and eat your meals regularly with few sweets on the side!

Don't be stubborn about your clothes. Simple sports frocks for day wear, full-skirted gowns (never too revealing) for evening.

Instead of pouting, and tirading against proper restrictions, spend those moments keeping yourself fresh as a daisy, and nicely groomed with hair brushed to shining glory and your nails manicured.

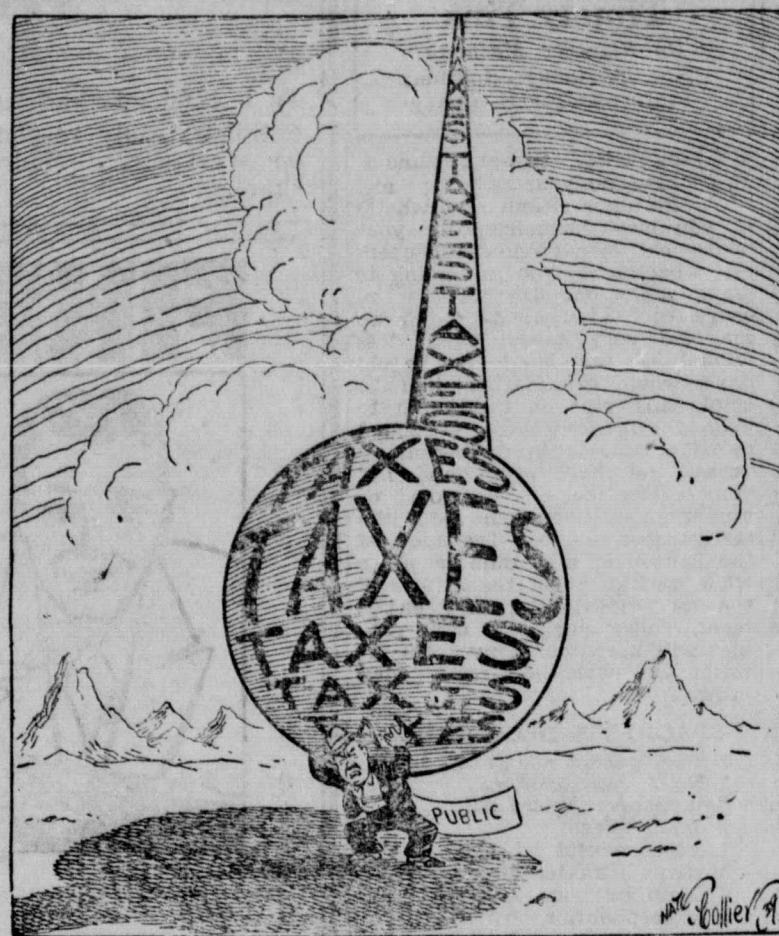

And above all, my dear, live proudly! Don't cheapen yourself through thoughtless acts (like petting indiscriminately) even though you see other girls being foolish! A few years from now when Prince Charming comes along you will be awfully glad you didn't!

## HINT-OF-THE-DAY

In your own home are materials for bath which beautify and invigorate. A pound of sea salt, two cupsfuls of starch, oatmeal, bran, almond meal or a small package of baking soda thrown into the tub are of great benefit in relaxing the nerves and reviving the spirits. If you have no shower under which to rinse, then put the meal in small cheesecloth bags which you can make yourself. A quarter of a pound each of oatmeal and almond meal mixed is a good combination. Scent your bath if you wish with any scent you have on hand.

Indians' Flood Protection Plan  
Before white men came to the Mississippi valley, Indians protected themselves from floods by erecting huge earthen mounds with flat tops on which they lived during high water.

## THE WORLD OF TOMORROW (?)

To the last man, the shrewd and plucky Scandinavian states—Norway, Sweden, Denmark and Finland—have given a firmly positive "No!" to Germany's attempts at wooing them into signing non-aggression treaties. And why should they? With smart statecraft they kept their skirts clear of the conflagration that virtually swept right across their front yards in 1914. Why dabble with compacts now? So Scandinavia has turned cold, blue eyes on Mr. Hitler's suggestions and quietly answered, "Thank you, no." That took no small measure of courage. Germany is a near, a very near, neighbor, and she has taken pains to plant no small number of National Socialist agents in the Scandinavian countries, and particularly in Denmark. Nevertheless, these nations presented a firm united front against any entangling alliances. They believe in that policy. They also practice it.

Those clean-up campaigns throughout the State to show millions of visitors a bright, spic-and-span California haven't been in vain. The tourist parade is already gathering momentum. The motor vehicle station on the Redwood Highway reports the number of incoming cars in April was 63 per cent greater than last April. California, here they come!

The first transcontinental automobile run, made in 1903, took more than two months. Today, it can be made in a few days.

Latest in motor car warning devices is a bell, not greatly different than a bicycle bell, although a much more resonant affair. It is designed for motorists who despise horns, of whom there are a great many more than the average person would believe.

A total of 42,900,000 automobiles were in operation throughout the world at the beginning of this year.

Robert Quillen packed volumes into a short paragraph of his syndicated column the other morning. He wrote: "Having thrown away our foreign market, multiplied our debt, left millions jobless and wrecked business, we feel competent to save the stupid world."

We have just read where the American Psychiatric Association, at its meeting in Chicago last week, heard evidence that civilized man may be committing mental suicide by overdeveloping his brain. Nobody can say we're not finding enough allies for the mess the world is in. But we are not inclined to attribute that mess to an excess of brainwork. Petty jealousies between states and nations, struggles to maintain, and get more of, that queer thing called prestige, and the fierce rantings of demagogues—no, that doesn't come under the heading of brainwork. Only a few thousand years out of the jungle, man has probably only scratched the surface of his possibilities. The psychiatrists are over-pessimistic. Their remarks should be taken with a grain of salt and two grains of optimism, for the people of the world—if not all their leaders—are a long way from finished in their great fight to make an even better and happier world.

It costs the United States approximately \$50,000,000 to build a modern battleship for the Navy. The first United States fleet was comprised of eight vessels costing but \$134,333. They were bought and fitted out for that sum at the beginning of the Revolutionary war.

It is estimated that 30 per cent of the approximately 40,000,000 motor car drivers in the United States are women and that they do less than 25 per cent of the driving, according to the Automobile Club of Southern California.

Californians better hold fast to their seats. The big rush is coming. Next week legislators' paychecks come to a stop, and just about that time the scramble to shove through hundreds of dubious measures will begin in a "hurry up" drive to end the session. So far, in all these past nine weeks of the second session, little has been accomplished. The battle of the budget has blocked consideration of most other matters, and die-hard tactics have also kept the Legislature from getting down to business long before prospects.

Picnic Table Mile  
Long To Feed Guests  
At Upland Tomorrow

Several hundred members of the Chamber of Commerce, service and other civic organizations in Upland will be busy today arranging for the city's greatest event which the citizens hope will outshine all other community events in the valley area. On the beautiful, velvety greensward in the parking of lovely Euclid avenue that extends from the mountains through Upland and Ontario they are setting a picnic table a mile long under the trees that shelter the wonderful lawn. At an all-state picnic tomorrow (Saturday) they expect this table will not be nearly long enough to accommodate all of the city's visitors. Dependent of course upon the success of this first event the "longest table in the world picnic" is to be made Upland's annual community event.

## Civil War Veteran's Final Tribute To Comrade E. J. Webster Is Dramatic Feature Of Impressive Funeral Service

A white rose and a red rose placed on the casket of Edgar J. Webster by silver haired civil war veterans who have almost reached the century mark, was their final tribute to a comrade who had fought with them in the Grand Army of the Republic.

Commander William Hoch, the chaplain, and two other members of the Pasadena G.A.R. post, were the aged soldiers who took part in the G.A.R. ritual for burial for Mr. Webster Saturday morning at one of the largest funerals ever held in the city. Following Rev. Arthur O. Pritchard, who officiated at the services, the veterans conducted their impressive ceremony during the course of which Commander Hoch placed a wreath on the casket and the chaplain read a prayer from the ritual.

The Civil War veterans, World War veterans and Boy Scouts participated in the services held at Grant Chapel at 10 o'clock, which were in charge of the Sierra Madre American Legion post. Loriston Noble, a Boy Scout from Troop 1, played taps and a R.O.T.C. firing squad from Pasadena Junior College, composed of Henry Hoag, Milton Brockman, Roy Embree and Gale Hersey, the last two students from Sierra Madre, gave a last salute to the old soldier who

passed away at the age of 91, Monday, May 8.

Interment was at Forest Lawn cemetery. The body was accompanied to the cemetery by pallbearers R. H. Pickett, R. O. Calkin, H. E. Gabriel, H. C. Reavis, Edward De Long and Carlos M. Block, all members of Legion Post 297.

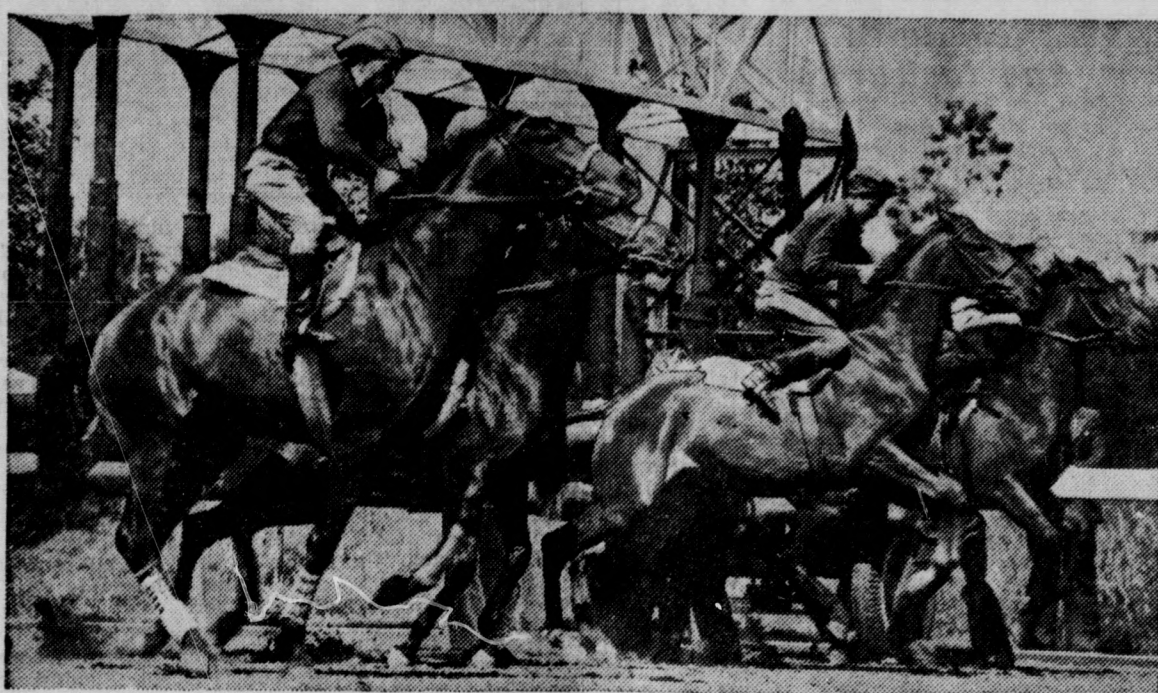

## Another Poet Is Now A Sierra Madiran

Lillian Parcell McAllen, a newcomer to Sierra Madre who resides at 534 Brookside Lane, is the author of a recently published volume of poetry entitled "Feet of Dawn." Miss Parcell's poems have appeared in the New York Sun, The Hartford Times, The Occult Digest, and numerous other poetry journals.

Her poems portray a deep-rooted understanding of the hidden mystery governing life in its outer manifestation. She has given readings of her poems at the Sierra Madre Woman's Club, The Western Poets Congress, and at the Wistaria Fete on Poets' Day.

## Local Firemen Win First Prize In Big Monrovia Parade

"One Man's Family," Sierra Madre Fire Department's comic entry in Monrovia Day parade Saturday won first prize in that division and as proof the gold cup is prominently displayed in Rikeman's window.

The neat little trailer tacked onto the historic red Ford which always attracts wide attention and usually brings back a prize in any contest it enters, plus the antics of firemen clad in shorts, was assured of a prize before it was ever entered. Among the firemen who did their bit for Sierra Madre were George Norris, Art Johnson, Bob Babbitt, Primo Lorenzini, Louis Karger, Jim Heasley, Frank Lovell and Robert Ward.

"I'm almost ashamed to walk down the street," said one stalwart firefighter who added to the jollity of the entry, "because we acted so darned crazy."

Mr. and Mrs. James N. Hawks will arrive this week from San Francisco where they have been on business since early in April, and will remain at their home on East Grand View avenue for a few weeks before leaving for their mine in the High Sierra.

## City To Be Cleaned Up To Reduce The Fire Hazard

Though the high fogs and light drizzles during the week have arrested the danger of brush and forest fires, there is not enough moisture to be of much benefit once the sun begins to work normally and starting today Fire Chief W. D. Richards and forest patrolmen will go on their regular fire patrols. Chief Richards will be assigned to day duty throughout the summer. The mountain patrolman ordinarily does not begin patrolling the mountainside at the city's border until well into June.

Chief Richards' first duty will be to inspect the grounds about every residence, particularly the back yards and to see that all rubbish and inflammable material is cleared away. Also he will list every property where the grass and weeds have not been removed as ordered by the city council. Next Wednesday, May 24, is the deadline for their removal by property owners. If they have not been removed by that time the city will move in crews and add the cost of destruction to the owner's tax bills.

At its meeting next Tuesday evening the council will hear any objections citizens may have to offer to its plan for eradication of the weed fire hazard.

## County Will Build New Bridge Over Eaton Wash

In a proposed \$8,291,345 county road budget submitted to the Board of Supervisors Tuesday, \$20,520 was allowed for construction of a bridge at New York avenue in Altadena across Eaton wash to replace the one which was washed away during the flood of March, 1938.

Besides cutting off a mile and a half for Sierra Madre motorists traveling to Altadena and other northern points via San Fernando valley, the new bridge will enable fire trucks to get in and out of the mountain area in that vicinity. The bridge will be about half a mile north of St. Lukes hospital.

Our baseball team downed the Arcadia Eagles in Santa Anita recreation park last Saturday by a score of 7 to 2. The game wasn't as easy as it looked, for the first four innings were scoreless but it was too much for the home town nine. A flock of triples by Ruben Gonzales, and a homer by Goodrich Simmons were among the many hits gathered by Sierra Madre. Pitcher Norman Munnzinger hurled a fine game walking only one man.

## SAYS PRESSURE GROUPS SPREADING DANGEROUS PHILOSOPHY

By RALPH H. TAYLOR

(Executive Secretary, Agricultural Council of California)

THE statement is frequently made by the heads of "pressure groups," in seeking bigger relief appropriations, that "Relief and WPA have come to stay—and must be more adequately financed, instead of being maintained on a charity subsistence basis."

So long as it is impossible for men and women to find work, who want work and would prefer work to charity, undoubtedly government must fill the gap with made-work or relief payments to keep them from want and hunger.

With that contention, no real American will quarrel. But the assumption that part of society must continue to support the rest of society in all the years to come, simply because the relief system has been found necessary during a period of economic chaos and emergency, is a defeatist attitude that is aggravating and prolonging the whole relief problem.

An illustration of where that indolent philosophy may lead was furnished a few days ago when a counselor in one of California's

leading universities sought to find out from one of his students what profession, business, or trade he wished to prepare for. "Are you interested in medicine?" the counselor asked. "No," responded the boy, "doctors have to work day and night; they have no time to call their own." The counselor tried again: "Would you like to be a lawyer?" But the youth rejected the law, too, stating that "Lawyers usually starve to death for years before they are able to build up a practice." After trying to interest the boy in several other occupations without avail, the slightly exasperated counselor asked: "Well, just what would you like to be?" And the student, after pondering the question at some length, replied: "To tell the truth, I'd like to be one of the unemployed!"

An extreme case, perhaps. But it is typical of the "I'm licked—why bother?" attitude that is rapidly undermining American habits of thrift and industry which have made this nation the most progressive, self-reliant and prosperous country on the face of the globe.

Another illuminating sidelight on the relief question was furnished last week when The People's World, Communist daily

newspaper, carried a front page condemnation of the State Relief Administration because it required persons on the relief rolls in Santa Barbara County to accept farm work in lieu of government bounty.

The People's World probably revealed the real source of irritation when it pointed out that the men could get more (from the government) doing nothing than they could picking peas on Santa Barbara county farms. In other words, being on relief has become more attractive than being employed in private industry—yet private industry, of course, pays the upkeep for relief!

California legislators, when they consider the relief question, need to consider it with their eyes open. There are radical groups in California that are militantly promoting the idea that the government owes every man a living. And if he can lobby the Legislature and get a better living for not working, than he can get on a farm, or in an office, for honest labor, then by all means he shouldn't work. That is the "new philosophy," but it is the most reprehensible and dangerous philosophy that could be inflicted on the American people.

Mrs. Mary F. Anderson, 221 North Auburn avenue, has returned to Grandin, North Dakota, where she will spend the summer.

## OPERA STARS IN FESTIVAL ORBIT

These three will be seen and heard in the American premiere of Handel's last oratorio, "Jephtha," in the Pasadena Civic Auditorium Friday night, June 2, sponsored by the non-profit Pasadena Music Festival Association. "Jephtha" will be the highlight of the fourth annual Music Festival, May 27 to June 4, including a Choral Night May 29, presenting eight choruses and choirs, and Youth Music Sunday afternoon, June 4, presenting outstanding Pasadena City Schools music groups. The public is invited.

## What A Girl Sees Ramblin' 'Round

DESERT sunsets do something to a person. The combination of rose, gold and purple clouds form a background for a sun so beautifully colored that it looks like a picture post card come to life. It has the same effect as many of nature's caprices when she shows off her never ending talents. The desert is full of surprises. Delicate, dainty wild flowers that look much too fragile to withstand the scorching sun and constant wind. Will and die when taken from their native surroundings even though tended carefully. The Joshua trees... fantastic twisted things that look like souls in agony, grow in great patches on the desert near Hi-Vista, properly named "A Desert Jewel". Some of the trees are older than the famed redwoods of northern California. It is claimed... and desert dwellers say these trees cannot be found in any other place in the world except in the Holy Lands. The violet rays of the sun actually prove their worth. They turn uncolored glass to all shades of purple—from a light lavender to a deep, near-black tone. Visitors at Hi-Vista's wild flower show were lavish with praise for the display of glassware colored by the sun's rays. A table with glassware of all kinds—jars, vases, bottles, glasses and miscellaneous articles, were sun-tinted lavender, looked much like the glassware produced by manufacturers in the East. Our first acquaintance with horny toads and lizards was pleasant but brief... Brief because they scuttled away so fast... and because of a quality feeling we had on touching the ugly, scaly things.

Then there were two young Sierra Madre clubwomen off to San Francisco and another city across the bay, who were so busy having their pictures taken at the Glendale station that the train pulled out without them... and left the young ladies... to the mercies of a pokey, local train... Mrs. Russell Lovejoy's young son, Pat, aged two, has gone in for farming on a big scale. His new project is caring for five baby chicks... and he is so engrossed in his role as foster mother that he waters them... and his shoes every few minutes.

Sometimes perplexing problems confront members of the street superintendent's department but none more smelly than the one caused by two skunks supposedly dead in the gutter at 642 Auburn avenue Monday... A call from that locality sent a stalwart city employee up to dispose of the animals... But as he neared the given address the skunks got up and slowly walked away... so did the stalwart official... He didn't mind taking care of dead skunks, but live ones were a different matter... in a short time two men returned... one with a gun... who shot the skunks... made certain they were dead... then the other gentleman consented to load them on the truck with a shovel and take them to the city's dumping ground for burial... The cats had been run over by an automobile.

Perhaps the only person in Sierra Madre who saw Queen Victoria stopped in at the NEWS office this week and in the most delightful manner told us about his youth in Scotland... James Laidlaw who has lived in this city for about 16 years was the person... He saw the Queen in 1889... He comes from a long lived family... born in 1801, lived long enough to entertain the youngsters with tales about when he was a boy... When the children asked him when he was born, he always said "the year 1"... The next question was "Did you know Adam?"... Adventure in the far west and other continents called to relatives of Mr. Laidlaw... An uncle joined the horde of miners in the '49 gold rush and

## Father Of 6 Drowned While Fishing

At an inquest held in Pasadena last week, a verdict of accidental drowning was returned in the death of Ernest Myers of San Gabriel, whose wife is the former Vera Styles of this city. Mr. Myers accompanied by two friends went on a fishing trip to the Puddingstone Dam in San Dimas Canyon May 1st, and at the close of the day was missing. His body was recovered several days later. Funeral services were conducted in San Gabriel Thursday afternoon. Mr. Styles is survived by his wife and six small children.

## ENGLANDERS TO MAKE 15 MONTHS TOUR

Immediately following graduation from Cal Tech June 1, where he majored in mathematics, Herman Englander, with his parents, Mr. and Mrs. M. R. Englander of 642 North Auburn avenue, will leave Sierra Madre for a 15 months' tour around the world. First step in their long journey will be the Exposition at San Francisco. They will cross the country to visit the New York World's Fair, sailing from that city on the Statendam, a Holland-American liner. They will spend the summer months in the Scandinavian countries, working south to spend the winter where it is warm. On their return to America in September, 1940, Herman will enter the Harvard University graduate school of business.

## FOSTER BUMPUS BACK AT NAVAL ACADEMY

## New Thoroughfare On East Montecito Now Assured

The Pacific Electric railway has advised the city council that for a nominal sum it will turn over to the city a strip of property along its rightofway on East Montecito avenue at Mountain Trail, 20 feet wide and extending west somewhat more than 200 feet, to be used as a thoroughfare, guaranteeing residents on some lots on the rightofway an outlet from their properties. Some time ago the railway company gave notice that in order to protect the title to its rightofway it would fence off its property. This would have hemmed in the property holders who now are guaranteed an outlet.

Ray Hudson, representing the property holders, has notified the council that they have raised \$150, the price fixed by the Pacific Electric for the property to be turned over to the city. The city's interest in the matter lies in the fact that it has a water line underneath the proposed new thoroughfare without any rights over it.

## 100,000 Visitors Expected At The Port Tomorrow During Observance Of Harbor Day With Open House Everywhere

The 100,000 Southern Californians expected at Los Angeles Long Beach harbor tomorrow for this year's observance of Harbor Day, will be very busy folk indeed. Harbor Day is the opening gun in the annual Foreign Trade Week.

Highlights of the celebration of Harbor Day call for public demonstrations of the fireboats; a graphic demonstration of marine rescue work by the United States Coast Guard; and an array of swimming and paddleboat races, as well as a regatta.

### HOMETOWNERS ENJOY MONROVIA'S FETE

Among Sierra Madreans who returned from the Monrovia Day celebration with expressions of keen enthusiasm were Mr. and Mrs. J. S. Billheimer, Mrs. W. J. Lawless, Alyce Anderson and Bruce McGill. Mr. and Mrs. Billheimer were breakfast hosts to the party, who were in turn luncheon guests of Mrs. W. J. Lawless, who at the invitation of City Attorney Dunn, spoke extemporaneously on city beautification to a large Monrovia audience. All members of the party expressed enjoyment of the day, with special mention going to our own city for the clever comic float entered by the fire department, and to Lloyd Burkholder, well known in this district, for his work as master of ceremonies at Monrovia Day festivities.

## College Men Strong Against Getting Into War Abroad

The answer to what the average college man thinks about going overseas again in the event of war was voiced at Claremont this week. Joining with him in this expression was the typical college co-ed.

In a test poll taken at Pomona College with 550 votes cast, 59 per cent of the men and 73 per cent of the women turned thumbs down on being involved in a war abroad. At the same time only 10 per cent of the men indicated they would refuse to bear arms in defense of their country.

The poll indicated that 33 per cent of the college men would refuse to go overseas unless drafted and 26 per cent would go "under no circumstances." Women voted 61 per cent for "under no circumstances."

Quizzed on whether they would be willing to fight to preserve the Monroe Doctrine of keeping a foreign power out of South America, only 19 per cent voted "yes."

## Hundreds Coming To Feast Of St. Rita

Continued from Page One

Music will be rendered by the young folks choir. A baritone solo of the celebrated hymn of St. Thomas of Aquinas, "Panis Angelicus," will be sung by Gene Mishima.

St. Rita was born at Rocca Porena, Italy, 1386, and died at Cascia, in 1456. On May 24, 1900, she was raised to the honors of the Altar and was solemnly canonized. Called the "Saint of the Impossible," she received this appellation from the people of Spain, on account of the many miracles wrought through her intercession.

Her life was extraordinary. Married at the age of 12 to an old man, extremely cruel and ill-tempered, and the mother of twins, she experienced 18 years of married life. Following the death of her husband she applied for admission to the Augustinian convent, but being a widow, was refused. After repeated entreaties she was admitted, received the religious habit and was professed. As a religious St. Rita was an example for all. She excelled in mortification and was widely known for the efficacy of her prayers.

The origin of blessing roses goes back to the time of St. Rita. During her last illness a relative paid her a visit. St. Rita requested the latter to go to the garden and gather a rose. As it was the month of January the request seemed impossible. But on going, the relative was surprised to see a rose peeping through the snow. Hence, to commemorate this occurrence, each year during the Feast of St. Rita, roses are blessed.

Each year since the shrine here was built the Feast of St. Rita has been observed and draws the faithful to Sierra Madre from a wide area. For the convenience of those who plan to make the pilgrimage the Altar Society of St. Rita's parish will serve a luncheon in the school hall. This will enable visitors to make a day of it at the Shrine.
